

Our schoolsystem- an overview

Short remark: in Germany education is in the responsibility of the single counties (Bundesländer). That makes it difficult to compare- 16 different educational laws, curricula, graduations...

How can we prepare for the real life?

What can we do to make students „Fit for World of Work“?

From class 5 on:

- impart knowledge
- developement of competences

- ✓ how to appropriate knowledge
- ✓ beeing tolerant
- ✓ find ways to solve problems
- ✓ plan work effectively
- ✓ work in a team
- ✓ self- confidence
- ✓ self- criticism
- ✓ take responsibility
- ✓ develope strengths
- ✓ lower weaknesses
- ✓ ...all what students need after school

- ❖ work with partner or groups on one topic
- ❖ project- lessons or days
- ❖ team- building activities
- ❖ including students in planning of school life and projects

**From theoretical to practical work
and...**

**...presentation to
community**

**Special project class 7:
bookslam**

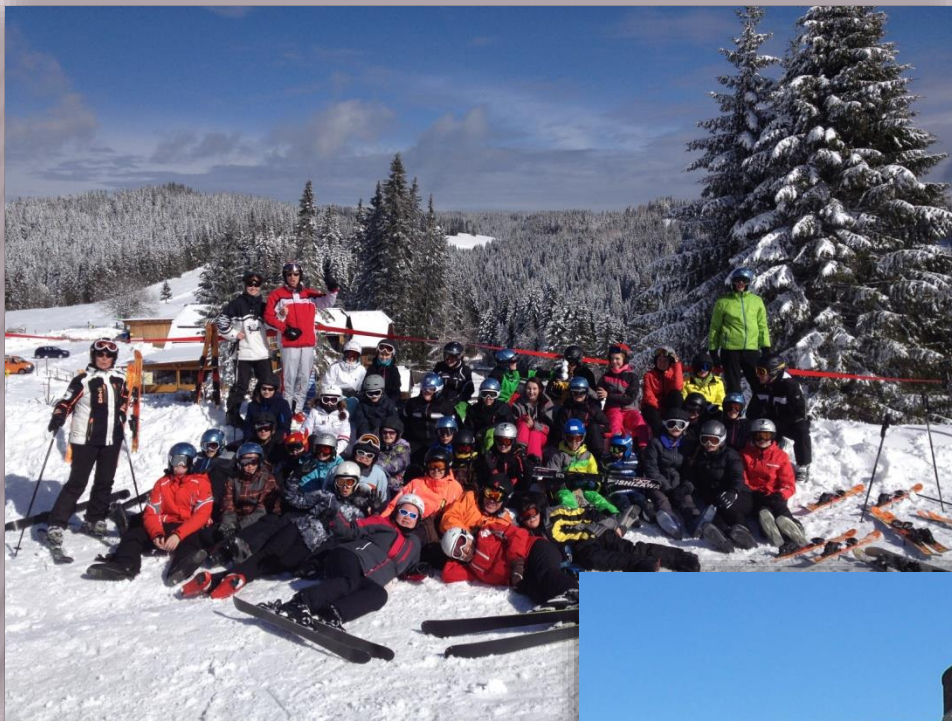

Team- building by...

...outdoor- activities with classes...

...having fun together and...

**...special educational offers
like skiing- course
(class 7)...**

**...or language- learning tour
to England (class 9).**

To develop and improve tolerance and multicultural understanding we offer:

A partnership with a polish school...

...interaction with young and old...

...active
work for
the
protection
of
environment
...

...taking part in international projects.
